The screenshot displays the Experlogix CPQ interface for configuring a 'Conventional Tractor Model EX5000'. The interface includes a sidebar with navigation options like MODEL, ENGINE, TRANSMISSION, SLEEPER, PAINT, CAB, TIRES & WHEELS, TANK, WARRANTY & PM, and NON-STOCK ITEMS. The main area shows configuration options and specifications for the tractor model. An error message dialog box is overlaid on the right side, stating: 'Errors: You have exceeded the recommended weight for your current engine selection. Please choose an engine with a larger load weight capacity or click Fix Errors and Experlogix will select an engine for you automatically.' Below the error message, there are '25' and '40' icons. At the bottom of the interface, a summary bar shows: 'Total List: \$214,146.85 | Dealer Cost: \$89,401.24 | Total Weight: 169,147 lbs | Commission: \$8,457.34 | Country: U.S. | Gross Profit: 89.2%'. The version number 'Ver. 7.5.0.35' is also visible.
