Build Rules & Formulas Fast

The Experlogix Design Center is a user-friendly workbench which allows non-technical users to create and maintain complex rules and sophisticated algebraic formulas – all without programming expertise.

Improve Manufacturing Productivity

Experlogix combines with Dynamics 365 to form a powerful engineering and product management system, automating bill-of-materials, cost and routing determinations, and enabling dramatic cuts in manufacturing lead times.

We Respect the Dynamics UI

No matter which version of Dynamics you use, Experlogix matches the look of each Dynamics release, including the new Unified Client Interface. Why is this important? It provides a natural transition from Dynamics to CPQ for your users, shortens learning curves and increases user adoption. Wish we didn't match Dynamics 365? We've got other skins to choose from or you can create your own.

Dynamics Updates

If you're ready to take advantage of a new Dynamics release, rest assured we support the new version – there's never a delay.

Why Experlogix CPQ?

Experlogix provides an extremely flexible, powerful and scalable CPQ solution that is easy to learn and use, empowering business users to maintain sophisticated configuration and pricing logic with ease. Our deep integration to Dynamics 365 is certified by Microsoft and is ready immediately upon installation, hosted on Microsoft Azure or on-premise.

Experlogix provides an experienced professional services team that brings best practices to Dynamics CPQ projects from hundreds of successful implementations worldwide.
