- Easy to set-up and maintain

Simplify Quotes & Orders

With Experlogix, you can quickly configure custom products and services that meet your customer's unique needs. Rules can be based on product type, geography, customer name/type, industry, deal size and more.

Real-Time Selection Validation

Experlogix CPQ immediately verifies the accuracy of each user entry, providing intelligent feedback via easy to understand pop-up messages and color-coded highlights. Our powerful compatibility engine can handle virtually any configuration scenario imaginable.

Improve Manufacturing Productivity

Experlogix combines with Dynamics NAV to form a powerful engineering and product management system, automating bill-of-materials, cost and routing determinations, and enabling dramatic cuts in manufacturing lead times.

Define Stock Configurations & Kits

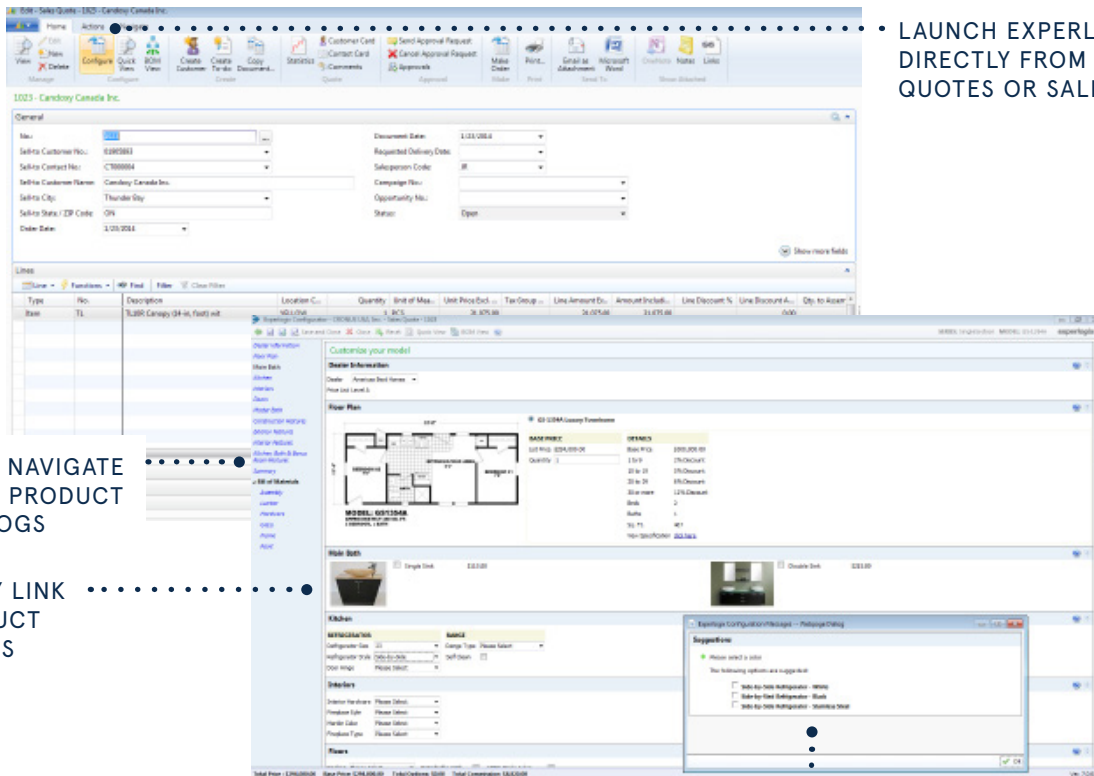

Streamline the quote and order entry process for your product lines with pre-built configurations and best practices. Use automatic up-sell and cross-sell messaging to increase your bottom line and profits.

Build Rules & Formulas Fast

The Experlogix Design Center is a user-friendly workbench which allows non-technical users to create and maintain complex rules and sophisticated algebraic formulas – all without programming expertise.

Proven Technology – Trusted Partner

By streamlining sales professionals' quote and order processes, Experlogix helps organizations close more deals faster. Experlogix is used by hundreds of companies globally and is recommended by Microsoft and its partners worldwide.

LAUNCH EXPERLOGIX DIRECTLY FROM NAV SALES QUOTES OR SALES ORDERS

EASILY NAVIGATE LARGE PRODUCT CATALOGS
