

Experlogix CPQ

for Microsoft Dynamics® NAV

www.experlogix.com

The Most Comprehensive CPQ (Configure, Price, Quote) Solution for Microsoft Dynamics NAV

The Experlogix CPQ solution empowers your sales team to quickly customize complex quotes and orders with 100 percent accuracy, leading to dramatic gains in revenue and profitability. With unique capabilities such as guided selling, rapid line-item creation and automated bill-of-material generation, Experlogix gives you the tools you need to maximize your quote-to-order and manufacturing performance.

- Eliminate quote and order errors
- Shorten quote-to-order cycle times
- Place engineering expertise into the hands of sales representatives
- Guarantee complete product and service configurations at the time of order
- Increase customer satisfaction and loyalty
- Automate bill-of-material and manufacturing orders
- Built-in Microsoft Dynamics NAV 2009, 2013, 2015, 2016 integration
- Easy to set-up and maintain

Simplify Quotes and Orders

With Experlogix, you can quickly configure custom products and services that meet your customer's unique needs. Rules can be based on product type, geography, customer name/type, industry, deal size and more.

Real-Time Selection Validation

Experlogix CPQ immediately verifies the accuracy of each user entry, providing intelligent feedback via easy to understand pop-up messages and color-coded highlights. Our powerful compatibility engine can handle virtually any configuration scenario imaginable.

Improve Manufacturing Productivity

Experlogix combines with Dynamics NAV to form a powerful engineering and product management system, automating bill-of-materials, cost and routing determinations, and enabling dramatic cuts in manufacturing lead times.

Define Stock Configurations and Kits

Streamline the quote and order entry process for your product lines with pre-built configurations and best practices. Use automatic up-sell and cross-sell messaging to increase your bottom line and profits.

Build Rules & Formulas Fast

The Experlogix Design Center is a user-friendly workbench which allows non-technical users to create and maintain complex rules and sophisticated algebraic formulas – all without programming expertise.

Proven Technology – Trusted Partner

By streamlining sales professionals' quote and order processes, Experlogix helps organizations close more deals faster. Experlogix is used by hundreds of companies globally and is recommended by Microsoft and its partners worldwide.
