Harness OOTB Sales

Complete integration with Salesforce Opportunities, Quotes and Orders are available the moment you install Experlogix. It's all available OOTB (out-of-the-box).

Intelligent Workflows

Experlogix can fire Salesforce workflows to route for discount approvals, engineering change requests and more.

Read from & Write to Salesforce

Let's say you need Experlogix to calculate a quote's gross profit and send that back to Salesforce for reporting. With clicks (rather than coding), it's done. What if you want Experlogix to recognize the account's country and only display products in that region to your rep? Get it done in minutes!

Salesforce Updates

If you're ready to take advantage of a new Salesforce release, rest assured we support the new version – there's never a delay.

We Respect the Salesforce UI

No matter which version of Salesforce you use, Experlogix matches the look of each Salesforce release. Why is this important? It provides a natural transition from Salesforce to CPQ for your users, shortens learning curves and increases user adoption. Wish we didn't match Salesforce? We've got other skins to choose from or you can create your own.
